Soft Skills

- Responsible
- Self Learning
- Teamworker
- Organized

Languages

Spanish: Native

English: A1

Experience

CamiDental Desktop Application | 2021 Project Class

C# | SQL Server | AWS | Google Calendar API

- Worked with a group of eleven engineers to be able to develop a program that would help a dental clinic to keep track of appointments, patient data, employee data, etc.
- Generate reports that would detail the control of administrative aspects to the clinic manager.

Cruise Tours | 2021 Project Class

Java | SQL

- Cruise Tours was a system capable of making reservations for people who wanted to take a cruise trip, providing detailed information about the trip itself; it allowed the client to choose the available routes.
- It managed access levels for the login, so the different users had their specific functionality.

SorBurgers Mobile App | 2022 Project Class

React Native | REST API | Node.js | MySQL

- Similar to Beep Beep App, it allowed the user to select the food order they wanted and show the product details. It includes login functionality, shopping cart and user profile.

Certificates

- CCNA 1 | Introduction to Networks
- CCNA 2 | Routing and Switching Essentials
- Introduction to Cibersecurity | Cisco NetWorking Academy Skills for all

Education

Universidad Católica de Honduras | January 2019 - Current

Global Score: 91.16%

Instituto San Francisco

Bachelor's Professional Technical in Computers Science 2016-2018
